

BENIITTA HUTTUNEN

FULL-STACK WEB DEVELOPER STUDENT

PROFILE

I'm a Full-Stack Web Development student looking for new challenges. My background in social services taught me how much caring really matters, whether it's caring about people, finding better ways to code or ensuring the quality of my work.

I'm highly motivated by challenges which is one of the reasons I love coding so much. For me a day off means more time to code.

PROJECTS

HR App
Employee profile management app with reminders and department images. Practiced React Router, hooks, state management, conditional rendering and form handling.
<https://github.com/HuttunenBe/hrApp>

Events App
Full-stack event discovery app with features such as event editing, search, calendar view and weather updates. Learned how to use APIs, CRUD operations and how to connect frontend with backend.
